

When it Comes to Health Care
Don't Ever Compromise Safety

Come to

Spain

in Southern Europe and

Discover One of the

Best Destinations in the World for

Customized Cost-Effective Health Care

Intermedical

Solutions

Intermedical Solutions

INTERMEDICAL SOLUTIONS is made up of a group of highly qualified medical professionals committed to optimal patient outcomes and high standard, affordable medicine in Spain.

We guide our patients throughout the whole process, arranging medical care from start to finish.

Your surgery will be performed in an accredited hospital by certified surgeons using the latest in design and technology. Through our partner hospital network we provide a full range of procedures.

All of our partner facilities are private institutions that either meet or exceed the high standards of quality care, technological innovation and accreditation that American medicine is known for.

**Savings between 50% to 80%
of the procedure cost in the U.S.**

The best value

Quality

Quality of care is our primary concern. All of our hospital partners and professionals have been screened based on quality of care, procedural availability, pricing and overall patient experience.

We only work with professionals and hospitals with the highest standards of care to assure you will receive First Class Medical Treatment.

Affordable health care

Many people need a costly medical procedure but cannot afford it. We offer high quality surgical services at prices 50% to 80% lower than prevailing US rates.

Being in crisis together with limited time sometimes leads to unclear thinking and poor decision making. **Take the time now to be informed.**

Rapid service

Perhaps waiting is not a result of not having the money to obtain treatment. Maybe you live in a country that has long waiting lists.

Our hospitals will work with your schedule to **ensure immediate access to health care.**

Travel opportunities

While the main motivation for the majority of our clients is affordable first class surgery, many take the advantage of this opportunity to visit Spain.

Why not take a few days before or after your procedure for sightseeing or to visit our exotic beaches with plenty of sunshine.
